#### 1. Qualitative Information on Quarterly Financial Results

#### (1) Explanation of Operating Results

During the nine months ended December 31, 2022, the Japanese economy continued to show signs of recovery thanks to the effects of various policies such as easing immigration restrictions in Japan amid the continued impact of the COVID-19 pandemic. Meanwhile, with a series of rises in policy interest rates by central banks around the world, compounded with concerns for the international situation including the protracted conflict in Ukraine, the outlook of the Japanese economy remained uncertain.

In the Japanese IT industry, amid the sense of increasing uncertainty due to the restrictions on supply brought on by the shortage of semiconductors and other components and the disrupted supply chain as well as the impact of the depreciating yen on procurement costs, the new normal under the COVID-19 pandemic has firmly established itself facilitating changes in lifestyles and work styles, which, in turn, has accelerated corporate efforts toward digital transformation (DX). Furthermore, in addition to the rising demand for security measures to combat increasingly sophisticated and varied cyberattacks, such as those by ransomware, strategic IT investments for promoting operational efficiency and automation amid manpower shortages have acquired added significance.

In such an environment, KANEMATSU ELECTRONICS LTD. (the "Company") and its consolidated subsidiaries (collectively, the "Group") continued to focus on developing its infrastructure construction business pivoting on the technological capability it has accumulated, as well as its solutions business mainly in the areas of virtualization and security, which are the foundation of its business. The Group also worked on building remote working environments for its customers, among others.

Specifically, the Group worked on workstyle reform and COVID-19 countermeasures through the construction of robust environments for virtual desktop infrastructure (VDI) and security solutions in line with the era of zero trust networks. At the same time, the Group further expanded sales of its businesses offering our unique "as a Service." Furthermore, in October 2022, the Company made GLOBAL SECURITY EXPERTS Inc. an equity method affiliate and, in November the same year, made NIHON ACCESS CO., LTD. a consolidated subsidiary, aiming to increase the corporate value of the Company over the medium- to long-term and further expand the business.

As a result of the above, in the nine months ended December 31, 2022, net sales increased by 9,734 million yen year on year to 57,182 million yen (up 20.5% year on year). Operating profit increased by 1,423 million yen year on year to 8,940 million yen (up 18.9% year on year), and ordinary profit increased by 1,389 million yen year on year to 8,969 million yen (up 18.3% year on year), while profit attributable to owners of parent increased by 745 million yen year on year to 5,886 million yen (up 14.5% year on year).

The status of reportable segments was as follows:

#### (IT Systems Business)

Net sales in the IT Systems Business increased by 9,308 million yen year on year to 42,010 million yen (up 28.5% year on year), mainly due to strong performances in the server-related business for the manufacturing industry.

#### (Services and Support Business)

Net sales in the Services and Support Business increased by 425 million yen year on year to 15,171 million yen (up 2.9% year on year), mainly due to an increase in sales related to the cloud services for the manufacturing industry.

## (2) Explanation of Financial Position for the Third Quarter under Review (Assets)

Current assets decreased by 5.3% from the end of the previous fiscal year to 71,075 million yen. This was mainly attributable to a decreases in cash and deposits of 6,786 million yen.

Non-current assets increased by 24.8% from the end of the previous fiscal year to 9,254 million yen. This was mainly attributable to an increase in goodwill of 806 million yen.

#### (Liabilities)

Current liabilities decreased by 13.1% from the end of the previous fiscal year to 15,606 million yen. This was mainly attributable to a decrease in income taxes payable of 2,243 million yen.

Non-current liabilities increased by 2.4% from the end of the previous fiscal year to 2,613 million yen. This was mainly attributable to an increase in retirement benefit liability of 32 million yen.

#### (Net assets)

Net assets increased by 0.3% from the end of the previous fiscal year to 62,110 million yen. This was mainly attributable to an increase in retained earnings by 1,308 million yen due to the recording of profit attributable to owners of parent of 5,886 million yen and the payment of dividends of 4,578 million yen. As a result, the equity ratio rose to 77.3% from 75.1% at the end of the previous fiscal year.
